WHOLESALE CATALOG 2023

Hello there

Lindsay Blevins has always been a visual storyteller. At the age of five, she wrote and illustrated a book for her father called *The Frot that Omost got Etin*, and ever since, she has been crafting stories and creating illustrations of things that bring her joy. Her sweet, whimsical cards are sure to bring a smile to the faces of their recipients.

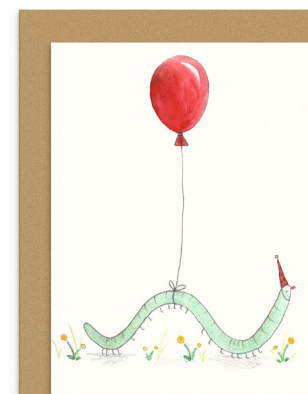

Lindsay's critters live in a cozy, happy world where they prepare for picnics, knit long scarves, and nurture special friendships. In this world, birds nest in a sheep's warm wool, and chickens spend endless hours gardening. She is greatly inspired by nature, her childhood in rural Pennsylvania, and the animals she grew up with. She hopes her illustrations will inspire their viewers' imagination, and ignite a sense of warmth and happiness.

Thank you for taking a look!
